# GanttLab (/)

The easy to use, fully functional Gantt chart for GitLab and GitHub.

Provide your teams with the right tool to master time and deadlines. Giving back credit to your project status and issues due dates has never been easier!

Run GanttLab Live › (https://live.ganttlab.org)

HOW IT WORKS

Your issues rules it all.

Everything comes from your GitLab or GitHub issues. Specify a *GanttStart* and a *GanttDue*, GanttLab will give you the higher overview.

Without any configuration, GanttLab comes with a Gantt chart for your issues out of the box. Your team instantly gets better insights on deadlines and provide more accurate ETA for your projects.

92 %   Managers are more accurate in due dates

72 %   Developers never used Gantt charts and now loves it

The type of tools you love.

User concern is one of the highest priority in building GanttLab. We do thoroughly consider feedback and ensure iterating on each features till we get the most simple solution and the greatest intuitive user experience.
